The company

SpiceModo is the spice brand of Vasundhara Performance Solutions Pvt. Ltd., headquartered in Hyderabad. We supply international export markets and India's leading quick-commerce platforms. We partner with certified farms across India's prime spice-growing regions — Meghalaya for turmeric, Kerala for black pepper, Nagaland for ghost peppers, coastal Karnataka for coconut — and Sri Lanka for true Ceylon cinnamon.

Our Hyderabad partner facility operates a documented HACCP-based food safety plan under our supervision; our own processing unit is under commissioning. Raw materials are tested within 24 hours of arrival, and every finished consignment is subjected to NABL-accredited lab analysis before documentation and shipment. Private labelling, bespoke blends and co-packing are available.

How we quote

Stocked lines carry a published specification and an indicative MOQ. Made-to-order lines are produced against a confirmed purchase order: price and MOQ are quoted per contract on an FOB or CIF basis, because origin, grade, packing and freight vary too much for a list price to mean anything. Payment for new buyers is typically 30 % advance T/T with 70 % against bill-of-lading copy, or LC at sight for larger orders. Send a specification and we will put a number and a date against it.

Prices are not printed in this catalogue — request a dated quotation from queries@spicemodo.com.
