

Fresh-Frozen Grated Coconut

Fresh-frozen grated coconut from Udupi, coastal Karnataka, India. 45% moisture, 35-38% fat, under 100 CFU/g. Hygienically processed, frozen at once, 25 kg blocks by reefer.

Most exported coconut is desiccated — dried to 3% moisture, with the flavour dried out along with the water. Ours is different: fresh mature coastal Karnataka coconuts are hand-graded, hygienically processed, and frozen within hours of grating.

Specification

Parameter	Value
Origin	Udupi, coastal Karnataka, India
Product type	Fresh-frozen grated coconut (not desiccated)
Moisture	45% ± 2%
Fat content	35-38%
Microbial load (TPC)	Below 100 CFU/g
Salmonella	Absent in 25g
Additives / preservatives	None — no SO ₂ , no bleaching
Storage	–18°C or below
Skin	Without skin — testa fully removed
Shelf life	6 months at –18 °C or below (unopened)
